JULY 2019

20 YEAR ANNIVERSARY EDITION

T H E B A T H M A K E R S

bcdesigns

01

Discover your perfect bath

Welcome to the BC Designs July 2019 brochure! Once again we have widened our range of baths, brassware and mirrors to inspire and enhance your bathroom space.

We are 20! Thank you for all the support over the years. It has been a busy year at BC Designs since we launched our iconic Copper Boat bath range and we haven't stopped there - this brochure sees even more introduction to colour than ever before. Our Colourkast range of Cian® baths & basins (page 52) are fresh off the boat and available to order in eight muted but exciting tones. We have expanded our Victrion brassware collection to include warm golds and brushed finishes in both lever and crosshead options (pages 88-95). Our new Ancorner bath combines our seamless Acrymite system with a space saving shower-bath solution (page 69) and find out more on our new BC-SOLIDBLUE reinforced, super-strong bath range on page 70.

"Our focus is on timeless, authentic design that holds its own in the bathroom market"

Barrie Cutchie
Design Director

THE CLASSIC

Roll Top

01

At BC Designs we know and love classic design and materials but also appreciate the value of modern techniques. Each traditional acrylic roll top bath reproduction is crafted with the original in mind but in modern materials for comfort and ease of installation. Bespoke colours are hand painted in our workshop to create a finish that is authentic and individual. Our new range of copper baths are made in the traditional handcrafted manner used for centuries and plated in our exciting choice of finishes.

Colour shown: Brinjal by Farrow & Ball. Bathroom design by Ripples.

CLASSIC ROLL TOP

Copper Boat

A new original design by Barrie Cutchie, available in four finish combinations.

Our Copper Boat Baths are made in the traditional hand crafted manner used for centuries, and therefore there will be gentle undulations and some colour variation in the finish so every bath is unique to you. Copper Baths are excellent heat conductors and will maintain the water temperature much longer than Cast Iron versions. Even after the bath has been emptied it will remain warm to the touch.

Important

Copper

Our Copper baths have a hand polished finish, so there will be undulations and imperfections in the surface. This is part of the character of the baths and should be expected before ordering. The copper will start to age over time and gain its own particular patina. Cleaning should only be done with a very mild soap solution and a soft cloth. De-scaling liquids such as Cillit Bang, Viakal etc should never be used.

Polished Nickel

The Polished Nickel finish is electroplated on the bath giving a beautiful shiny finish which will develop its own character over time.

Overflow & drilling

BC Designs Copper Baths are supplied without overflow. If an overflow is required they can be drilled on site. We can advise on how to do this and supply an exposed waste to suit. Contact us for more information.

CLASSIC ROLL TOP

Add a splash of Colour

For those who like something a little bit different, we offer a bespoke bath painting service on our roll top baths. Choose your own paint colour to match your scheme from manufacturers such as Farrow & Ball, Little Greene and Mylands Paint.

Whichever paint you choose it must be available in an Exterior Eggshell finish and fit for purpose. In addition to these paint ranges, we can also paint your bath in a choice of RAL Classic colours or British Standard colours. We also have a digital scanning service for colour matching. Please contact us to check the suitability on any of the above.

Please allow 14 working days for delivery of your painted bath.

FARROW & BALL
CRAFTSMEN IN PAINT AND PAPER

MYLANDS
ESTABLISHED LONDON 1884

Little Greene
— PAINT & PAPER 1773 —

All of our roll top baths are painted to order in our workshop in Colchester, Essex.

- Our in house specialist will key the bath first and then coat it with a water based primer/sealer. Using a roller the bath is then painted with 3 or more coats of the chosen colour.
- We use an Exterior Eggshell paint which has a 20% sheen finish.
- The paint is durable, eco-friendly and has a breathable finish.
- Resistant to flaking, peeling and colour fade for up to 6 years (providing care instructions for the surface are followed).
- Water and fungal resistant.
- Washable and wipeable.
- The bath will go through several processes, being quality checked all the way so we can ensure a perfect finish.

Note

This colour chart is only representative of the final paint finish. Please refer to the paint manufacturers chart for an accurate finish before ordering.

Full colour swatches can be ordered directly from the Farrow & Ball or Little Greene Paint Company websites. RAL colours also available.

Our painted Boat bath is a bespoke product and we cannot accept liability for colour chosen. It is the customer's responsibility to check the paint before ordering. We are unable to accept returns on this basis.

SOLID SURFACE

Cian[®] Cast

02

Our exclusive Cian[®] material is a first in its class and is manufactured from the highest quality raw materials. It is highly durable, stain resistant, non-porous, scratch resistant and retains heat for the perfect long soak. Due to its unique properties it allows BC Designs to create classic as well as cutting edge shapes that are wonderful to bathe in.

Shown: The Kurv Bath. Bathroom design by Nicholas Anthony

The benefits?

Why choose a Cian® cast BC Designs bath?

Durability

Cian® Solid Surfacing will withstand the rigors of everyday exposure.

Overflow

Unlike many free-standing baths on the market, most of our Cian® baths are available with overflows to meet build regulations and to give piece of mind. Please always check the specifications before ordering.

Non-porous

Unaffected by fluctuating moisture ingress and humidity, Cian® Solid Surfacing is for all practical purposes. 100% non-porous.

Polished finish

Our material does not have a deceptive gel coat and is hand polished for a luxurious shiny finish. A few of our models are also available in a silk matt finish.

NEW ColourKast

Fancy a bit of colour? Something different? Our unique range of ColourKast shades are now available to order on most of our Cian® bath designs. Choose from eight distinctive colours, including Gunmetal, Satin Rose and Khaki Green.

Thermal shock

Cian® Solid Surfacing complies with Din 198 thermal shock standards and can be placed on heated floors.

Made in South Africa

All of our Cian® solid surface baths are manufactured in our exclusive factory in Cape Town, South Africa. We use the best and most meticulous techniques to create a material that is free from imperfections and polished to a premium finish.

Easy maintenance

A daily wipe using a non-abrasive cleaning agent will keep the surface clean. It is resistant to deterioration and minor damages can be polished or repaired.

CIAN® SOLID SURFACE

Aurelius

Inspired by the fireclay baths of the early 20th Century

The hand-finished Aurelius is made from a single, solid casting, using a composite material for durability and heat-retention.

Our Cian baths come without a waste. We now have a number of waste options and finishes to suit so please see product details and page 86 for more information.

Specifications

Material	Cian® solid surface
Height	570mm
Length	1680mm
Width	750mm
Capacity	180 ltrs
Dry Weight	90 Kg
Finish	Polished inner/ matt outer
Mount Type	Floor
Void	120mm
Waste	Not included

Important

NO OVERFLOW.
The Casini does not have an overflow.

Note

When a trap is fitted to this bath, it will protrude below the floor level. Therefore, a small floor recess will have to be made under the bath to allow for that.

Shown with Victrion crosshead bath shower mixer with free-standing legs. See page 69.

Senator

Available with solid bun feet

The Senator bath is an authentic reproduction of the old 20th century Fireclay bath design but cast in our modern Cian® solid surface material. The Senator has a huge bathing area and is hand finished which makes it a unique and authentic centrepiece. It is available with or without bun feet.

Our Cian baths come without a waste. We now have a number of waste options and finishes to suit so please see product details and page 86 for more information.

Basin

Material	Cian® solid surface
Height	160mm
Length	525mm
Width	380mm
Finish	Polished

Important

1. It is not possible to fit an overflow filler to this bath.
2. The provenance of this product is reproducing the authentic look of early 20th century manufacturing. There will be slight undulations and blemishes in the finish and these should be viewed in this light.

Shown with Victrion triple exposed valve, 8" head and spout. See page 74.

Kurv

Available with plinth

The popular Kurv Cian® solid-surface bath is a combination of trend setting design and technical achievement. The minimalist Kurv bath is both comfortable and stylish to enhance any bathroom. Being rimless, the Kurv gives maximum bathing area.

Our Cian baths come without a waste. We now have a number of waste options and finishes to suit so please see product details and page 86 for more information.

Height	640mm

Basin

Material	Cian® solid surface
Height	170mm
Length	615mm
Width	360mm
Finish	Polished

Important

1. There is a limited void under this bath, therefore the trap and waste will need to be installed under floor level. If this is not possible there is a separate plinth available to raise the level of the bath. The plinth and bath must be ordered together as they are individually matched in our workshop.
2. This bath has an overflow built into the side.
3. It is not therefore possible to fit an overflow filler to this bath.

Key features and benefits

- It is a colour throughout material providing all the incredible benefits of solid surfacing.
- Cian® Solid Surfacing's superior process technology ensures a solid homogeneous, 100% non-porous surface.
- All products are renewable and repairable due to the impermeable surface. Minor scratches and scuffs can be easily removed.
- ColourKast baths are manufactured with a silk matt finish only - white versions are available in a polished finish.
- Most of our Cian® baths have a unique integrated waste overflow system built into the walls of its baths.
- All products carry a 25-year warranty.
- Cian® baths can be fitted on heated floors, unlike many models on the market.

How to order ColourKast

Most Cian® baths can be ordered in ColourKast – and at the same price as White! Simply state your bath's product code and add your finish to the end to order.

For example: Vive Bath in Industrial Grey - BAB064IG

Matching ColourKast wastes can be ordered to suit – as well as various plated finishes. All ColourKast baths and basins are manufactured in a Silk Matt finish only. While we endeavour to hold stock of most baths please allow up to 10 weeks for delivery for some models. Check with us which baths we have in stock before ordering.

CONTEMPORARY

Acrymite®

— 0 —

03

Our unique range of contemporary acrylic baths are manufactured using our exclusive Acrymite® system. Each bath is made using reinforced acrylic panels, joined seamlessly for a one-piece look, and because we only cover the join any 'wear and tear' scuffs and marks can be easily removed.

Bathroom project by Ripples Bathrooms. Designer — Chris Payne.

The benefits?

Why choose an Acrymite® BC Designs bath?

Bathroom project by Ripples Bathrooms. Designer – Chris Payne.

One piece look

Although double skinned acrylic, our Acrymite® baths have no unsightly join marks for a premium 'one piece' look.

Overflow

Our Acrymite® baths are available with overflows to meet building regulations and to give piece of mind. A select few of our baths have the option of an overflow filler.

Easy maintenance

A daily wipe using a non-abrasive cleaning agent will keep the surface clean. It is resistant to deterioration and minor damages can be polished or repaired.

Heat retaining

Our Acrymite® baths retain the heat of the room for a comfortable bathing experience.

Guarantees

Acrymite® baths have a ten year guarantee and will retain their original beauty for many years with minimum maintenance required.

CONTEMPORARY ACRYMITE®

Viado

The simplicity of the Viado bath makes it a firm favourite and it is now available in three sizes.

The Viado is fitted with a push down waste in chrome.

Important

1. When a trap is fitted to this bath, it will protrude below the floor level. Therefore, a small floor recess will have to be made under the bath to allow for that.
2. If it is necessary to bring waste pipe work out above floor please seek advice from BC Designs prior to installation.
3. This bath is supplied with a factory fitted push down waste in Chrome.
4. It is not possible to fit an overflow filler to this bath.

Void	130
Dry Weight	40 Kg

Important

1. There is sufficient void under this bath to accommodate a low level trap and waste pipe work.
2. If it is necessary to bring waste pipe work out above floor please seek advice from BC Designs prior to installation
3. This bath is supplied with a factory fitted push down waste in Chrome, unless an overflow filler is ordered as extra.

Bathroom design by TEC Lifestyle.

CONTEMPORARY ACRYMITE®

Dinkee

Dinkee by name, and by nature, this bath is a fantastic solution for small spaces. Because of its thin rim, the Dinkee offers a surprisingly spacious bathing area which is complemented by a seamless acrylic outer.

The Dinkee bath is fitted with a push down waste in chrome.

Price

£ 1,216.67 *Exc. VAT*

£ 1,460.00 *Inc. VAT*

Code BAS012

Specifications

Material	Acrymite® acrylic
Height	600mm
Length	1500mm
Width	780mm
Capacity	170 ltrs
Dry Weight	34 Kg
Finish	Polished White
Mount Type	Floor
Void	100
Waste	Included

Important

1. There is sufficient void under this bath to accommodate a low level trap and waste pipe work.
2. If it is necessary to bring waste pipe work out above floor please seek advice from BC Designs prior to installation.
3. Due to limited access between inner and outer this bath is supplied with a factory fitted push down waste in Chrome
4. It is not therefore possible to fit an overflow filler to this bath.

CONTEMPORARY ACRYMITE®

Slipp

A traditional slipper bath brought up to date with sweeping lines and smooth construction.

The Slipp comes with an unslotted push down waste in Chrome.

Price

£ 1,189.17 *Exc. VAT*

£ 1,427.00 *Inc. VAT*

Code BAS035

Specifications

Material	Acrymite® acrylic
Height	800mm
Length	1590mm
Width	675mm
Capacity	195 ltrs
Dry Weight	35 Kg
Finish	Polished White
Mount Type	Floor
Void	70
Waste	Included

Important

1. When a trap is fitted to this bath, it will protrude below the floor level. Therefore, a small floor recess will have to be made under the bath to allow for that.
2. If it is necessary to bring waste pipe work out above floor please seek advice from BC Designs prior to installation.
3. **NO OVERFLOW.**
This bath does not have an overflow.
4. It is not therefore possible to fit an overflow filler to this bath.

CONTEMPORARY ACRYMITE®

Plazia

The Plazia has a thicker rim for a chunkier look for both modern and classic settings.

The Plazia is fitted with a push down waste in chrome.

DISCOVER OUR EXTRA STRONG BATH RANGE

Our baths are made of the highest quality materials. The sheet we use is completely resistant to the UV rays which prevents discolouring when exposed to sunlight. The baths are reinforced with layers of fibreglass, resin and a special hardening composite called BC-Solidblue which makes the baths much stronger and improves insulation. As a result the water stays warm for longer.

UV LIGHT RESISTANT

High quality material does not discolour

10 YEAR GUARANTEE

Against splitting, warping & creaking

18MM BASE BOARD

Fully encapsulated technology

MULTIPLE SHAPES & SIZES

ACCESSORIES & BRASSWARE

Our showers

The BC Designs Victrion shower valves are not just good looking! Our twin, triple and dual control shower valves are manufactured in the UK by a dedicated team. By installing one of our shower valves, you can enjoy the following benefits:

Industry certified

Our concealed twin, triple and dual control shower valves are TMV approved. All thermostatic valves are WRAS approved.

TMV2

TMV2 approval means the shower will maintain the preset temperatures even if the water pressure varies when other appliances are used, preventing domestic hot water scalding. Only concealed valves are TMV Approved.

TMV3

TMV3 approval means that the shower meets Government health & safety requirements for use in public places such as schools, hospitals etc. Together, they ensure that our showers offer peace of mind and safe showering for all the family. Only concealed valves are TMV Approved.

Safety for all the family

- Thermostatic control to +/- 2 degrees even if the temperature or incoming pressures fluctuate.
- Full thermal protection to prevent scalding even in the event of hot or cold water failure.
- In the event of hot or cold water failure, the valve will shut down the water supply.

Reliability

- See website for exact flow rates of individual valves.
- Accurate flow control.
- Excellent flow rates - even at low pressure. Victrion showers can deliver 5.5 ltrs of water per minute at 0.1 bar pressure.
- The patented thermostatic cartridge is highly resistant to calcium build-up - even in hard water areas.

Ease of installation

BC Designs Victrion thermostatic shower valves, contain a patented cartridge, which makes them simple to install and easy to maintain after installation.

The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace.

Guarantee

Victrion shower valves come with a 10 year guarantee. Visit our website for terms and conditions.

Important information

Terms of trading

BC Designs will not normally sell directly to the consumer and for this reason our published terms and conditions relate to the supply of goods on a business to business basis. Terms and conditions applicable to the end user are also those offered by the outlet from where you purchase the item and may vary. For this reason, end users should always refer any issue to the point of purchase in the first instance.

Guarantee and warranty

We offer a 1-year guarantee against structure faults on all mirror products and wastes in this brochure. This may be enhanced by warranties offered by the manufacturer; however, it is important that you follow the manufacturer's instructions in registering for any such benefits. We offer a 10-year guarantee against manufacturing faults on our unique range of baths and non-electrical products. In either instance, all products must be fitted in accordance with both the instructions and any relevant regulations that apply to the country in which they are fitted. They are supplied for normal domestic use only. We do not cover products against fair wear and tear, misuse, incorrect usage, incorrect installation, incorrect specification, malicious or accidental damage, negligence or lack of servicing. Guarantees and warranties are non transferable. Proof of purchase will be required to validate any claim. No claim greater than the purchase price paid to BC Designs or for consequential loss will be entertained by BC Designs, except where negligence on the part of BC Designs is proven. When installing baths with pre-fitted wastes it is your responsibility to check for leaks, loose fittings and seals as well as levelling issues. Special finishes on wastes, brassware and accessories have a 1 year guarantee.

Authenticity

Many products in this brochure are made using techniques rarely in common use today. This is to recreate an authentic period look and this should not be confused with mass-produced, featureless product and thus construed as imperfect. Where applicable this is highlighted in our information on individual products.

Printing accuracy

Prices are for guidance and are correct at the time of going to print but do not constitute a formal offer as prices may have to change due to unforeseen circumstances. Accordingly, all prices are those ruling at the date of despatch.

Photographs in this brochure are studio posed in a setting intended to demonstrate the ambiance and look of the main product featured, unless otherwise stated. All items used to dress the shot are photographer's props and therefore we are unable to advise on them.

Availability

We aim to maintain stock of all items in this brochure at all times. However, the majority of items contained herein are produced in small volume and in specialist circumstances and can therefore be affected by significant lead times. Availability should be checked at the time of ordering and before making any commitment to installation.

Measurements and specifications

All measurements are given for guidance only. Variation may occur either due to manufacturing tolerances, specification change, error or admission. We reserve the right to change specifications at any time. For this reason, it is recommended to check critical dimensions with BC Designs prior to ordering. BC Designs will not accept any liability where there is no prior written advice of critical requirements.

Bespoke orders

Special orders are only accepted in writing. Delivery periods can not be guaranteed. Cancelling will only be accepted in writing and can only be accepted prior to production or despatch of the item. Bespoke products that are specially ordered, such as painted baths, will not be accepted for return.

Delivery

We use third party couriers and hauliers. All deliveries are FOC (at a cost of over £ 125 net to BC Designs) to a commercial address, with the exception of overseas and out of area postcodes. At the time of order a confirmation will be sent which will include all delivery information. Deliveries to private addresses and those requiring premium services in excess of those described above will incur additional charges. Please contact our Sales Office with your requirements to obtain a quote. Orders for less than £ 125 net will incur a carriage charge of £ 8.95. For further delivery information please visit our website.

Damage in transit

All products supplied by BC Designs are carefully inspected prior to shipping, and every care is taken with packaging to ensure orders arrive in good condition. However, sometimes things can go wrong. As we do not use our own transport there is a limited time in which we can make a claim for any damage in transit against carriers. For this reason, outer packaging should be inspected for obvious signs of damage before accepting delivery and all items should be opened and inspected within 3 days of receipt. We cannot accept claims for damage in transit after this, nor will we accept any responsibility once goods have been passed to a third party without prior inspection.

Returning goods

Items which are unsuitable or not required may be returned subject to the following conditions:

1. BC Designs must be contacted prior to any item being returned and returns documentation obtained. BC Designs will not accept any responsibility where this requirement has not been complied with.
2. The original BC Designs invoice number must be quoted when contacting BC Designs. BC Designs will only deal with the persons to whom the product was originally invoiced.
3. The item to be returned must be in perfect re-saleable condition when received at BC Designs. We will not accept any items for return which have been fitted, used or in a condition other than that which it was supplied.
4. The retail packaging must be unmarked and in good condition. For this reason, it is wise to retain all packaging materials and to open packaging with care.
5. It is not the responsibility of BC Designs to organise or pay for the return of goods in these circumstances.
6. In selecting a suitable method for return consideration should be given to proper insurance as BC Designs cannot accept liability for goods damaged in transit.
7. Responsibility for packaging the item in a suitably robust fashion lies with the sender. If there is any doubt as to what a suitably robust fashion means please contact BC Designs for specific packaging advice.
8. Items damaged in transit will not be accepted for refund/credit.

Claims after installation

No claims will be entertained other than for a genuine manufacturing fault after installation has commenced. Visible marks, scratches, impact damage, discolouration through chemical contamination, etc will not be accepted as genuine manufacturing faults. Proper care should be taken to protect the product from damage during installation and through to commissioning.

Your rights

Any agreement between BC Designs and the Customer shall be subject to and governed by the domestic law of England. No agreement between BC Designs and the customer can be deemed to be binding howsoever proposed or made in the event that such agreement is found to conflict with English law.

Full Terms and Conditions of supply are available on request.
