Brassware

Twenty years of bathroom obsession

We understand bathrooms. Over 20 years the bathroom has evolved from a practical space for washing and cleansing to an emotional one focused on relaxation and rejuvenation. In response, Crosswater has curated an extensive range of products to delight our customers, always.

From our luxury 'Vanguard' basin mixers and bath fillers to the latest premium thermostatic shower valves, a combination of time-honoured manufacturing techniques, quality materials and tried-and-tested components are brought together to offer a complete brassware range that proudly wears the Crosswater seal of approval.

Our collection understands the complexities of water's flow and in response delivers a wide selection of shower heads, multifunction valves and those luxurious additions that transform everyday showering routines into an indulgent experience. Combine this with those all-important finishing touches, and you can realise a truly exceptional bathroom solution.

Choosing your Basin & Bath Mixer

We've made it easier than ever to create a complete solution that delivers on each element of bathroom function.

step 1 CHOOSE YOUR STYLE

Taps and mixers typically become the focal point of the bathroom. Sometimes just replacing tired old taps can radically transform an existing bathroom. For a more modern look and the most comfortable operation choose contemporary taps with single lever operation, minimalist designs, clean lines and geometric styling.

If you want to capture the essence of years gone by then choose taps with classic features such as cross head handles, exquisite detailing and ceramic inserts. Basins with traditional pillar taps and baths with ornate bath shower mixers inspire a timeless elegance that never looks dated.

Contemporary Style (MPRO)

Classic Style (Belgravia)

step 2 IDENTIFY YOUR WATER SYSTEM

To ensure the best performance from your basin and bath mixers, it is essential that you choose ones that are appropriate for the water pressure in your home.

If you have a gravity-fed system it means you typically have low pressure (LP) while adding a pump or using a combination boiler system means yours is medium (MP) to high pressure (HP). If you have a pressurised system, you will always have high pressure. A low-pressure tap will work well with the high-pressure system, however using a high-pressure tap in a low-pressure system will result in poor water flow, meaning that it will take more time to fill a basin and even longer to fill a bath.

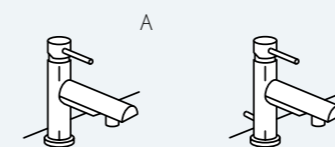

All Crosswater products in this brochure are always clearly marked as either LP, MP or HP and further details of typical UK water systems appear on page 318.

step 3 CHOOSE YOUR PRODUCT TYPE

Your choice of sanitary-ware dictates the type of tap you should choose. Most bathroom basins come with either 1, 2 or 3 tap holes. Many modern basins have a single tap hole that will accommodate a monobloc mixer tap which mixes the hot and cold with a single control handle. Traditional-style basins are likely to come with two holes for separate hot and cold pillar taps. Bath taps can be mounted on the deck, wall or in some circumstances on the floor. Deck mounted bath fillers can also include a shower handset.

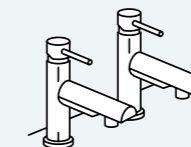

Additionally, if you have a Bidet, we offer Bidet mixers in selected ranges.

Basin

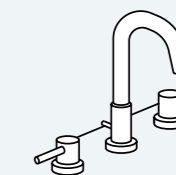

Single Tap Hole Basins

Basin monobloc mixers need to be paired with a simple click-clack waste (A), but some also offer a pop-up waste (B). For smaller basins, a range of **mini mixers** are available, page 224.

2 Tap Hole Basins

Basin pillar taps are for two tap hole basins and feature separate controls for hot and cold water.

3 Tap Hole Basins

Basin 3 hole mixers accommodate hot and cold controls along with a separate water spout. These can be deck and wall mounted.

Basins with No Tap Hole

Some basins have no tap holes. In this scenario, you may want to choose either a tall Monobloc mixer which stands to the side of the basin or mount the taps on the wall.

Tall Monobloc

Wall Mounted 2 or 3 Hole

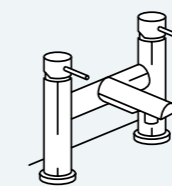

Basin Monobloc

Bath

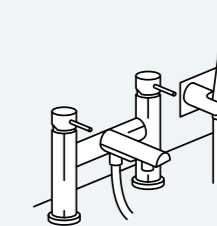

Single Tap Hole Baths

Bath monobloc fillers need to be paired with a separate bath waste.

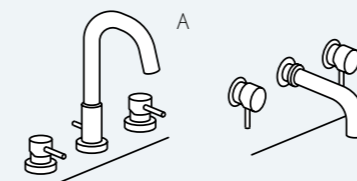

2 Hole Baths Deck Mounted

Bath fillers (2 hole) feature separate controls for the hot and cold water.

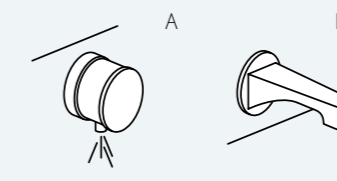

Bath Shower Mixer

Bath shower mixers and kits (2 hole) feature separate hot and cold water controls along with a shower handset. Additionally, 4 or 5 hole versions complete with handsets are available in selected ranges.

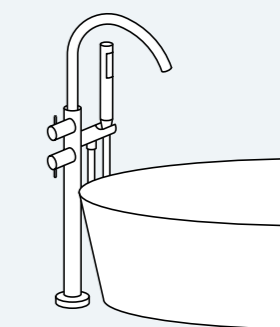

Wall / Deck Mounted 3 Hole

Bath fillers (3 hole) feature separate hot and cold water controls, along with a water spout. These can be wall (A) or deck (B) mounted. Additionally, 2 hole versions are available in selected ranges.

Bath Overflow Filler / Spout

Bath overflow fillers which allow filling of the bath from the waste overflow (A) or bath spout (B) require an independent valve with flow control.

Floor Standing

Floor standing bath fillers need to be fitted to and under the floor, and come in both manual and thermostatic variants.

Creating your Perfect Shower Experience

Choosing your perfect shower is an intensely personal choice. You may prefer a fixed overhead shower, the flexibility of a handset or body jets to create an enjoyable spa-like experience? Your showering preference may be to invigorate and wake you up, or to help you relax at the end of a long day?

step 1

HOW MANY WATER OUTLETS?

1 OUTLET
One outlet showers deliver water from a single source. Examples of shower outlets and installation types are listed below.

Each water outlet could be different depending on your preferred design. This could be a combination of either a shower head, handset, body jets, bath spout or overflow bath filler.

2 OUTLET
Two outlet showers deliver water to two water outlets where you can divert between the two or with some shower valves, have both outlets on at the same time.

Depending on your requirements you need to check that your water system can deliver enough water pressure to provide your preferred shower experience.

3 OUTLET
Three outlet showers allow water delivery from 3 outlets with the ability to switch between the 3 or have any two working at the same time.

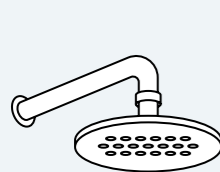

More details about water pressure and water systems can be found on page 248.

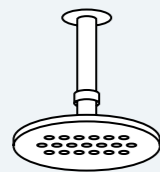

step 2

WHERE WILL I INSTALL THE SHOWER OUTLET?

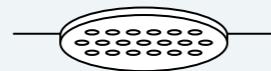

Your first consideration is to ensure that the shower valve is placed at a comfortable height for all members of the household. Slide rail kits and shower handsets should also be within easy reach ensuring everyone can use and adjust all aspects of the system easily. Installation types are as follows:

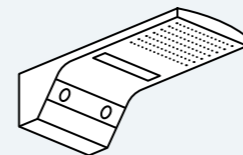

Fixed Head - Wall
This type of shower head is attached to the wall but extends out via an arm. The diameter of the shower head is usually much greater than a standard handset and typically points straight down ensuring greater coverage of user. These shower heads usually only have one type of flow pattern.

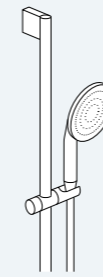

Fixed Head - Ceiling
This is similar to a wall arm type but is attached to the ceiling. Illuminated options are available in this installation type.

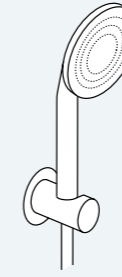

Fixed Head - Ceiling (Recessed)
Ideal for low ceilings or for those who seek a minimal look, recessed shower heads fit flush to an overhead surface and are available in round and square designs. Illuminated and multi water flow options are available in this range including cascading waterfall effect, gentle rainfall and fine mist spray.

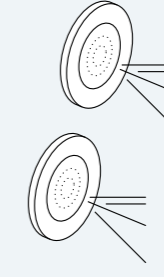

Fixed Head - Wall Integral
These shower heads are attached directly to the wall and can create the ultimate shower experience and statement style. Options within this range can feature a combination of water flows including cascading waterfall effect, gentle rainfall, invigorating spray jets and chromotherapy options for the ultimate experience.

Handset & Slide Rail
Ideal for families where there are variances in height, a handset and rail kit adjust the shower handset to individual heights and angles. All riser rails are friction free, so they can effortlessly glide to the right position.

Handset on Wall
Handsets which sit in a bracket which is attached to the wall provide the ideal solution when accommodating for a second shower outlet. They include compatible hoses and wall outlets for a minimal design which will complement your existing brassware.

Body Jets
Body jets are fitted into the wall and can be positioned to suit you. The range has numerous options in terms of design and function. Many of the body jets are adjustable and can be placed easily for each user. There are also rotating options which provide an invigorating spa-like experience for the user.

Choosing the Right Shower Valve

Shower valves are used to control the flow of water and temperature. They offer different levels of type, functionality and style to match your preferences and bathroom design perfectly. There are a number of different types.

CHOOSE A THERMOSTATIC VALVE

Safety
Thermostatic shower valves feature an inbuilt anti-scald device to protect you and your family. With a thermostatic shower, you'll never suffer a scalding or freezing blast of water, ensuring complete safety.

Comfort
Thermostatic showers are designed to maintain the water temperature, so if somebody flushes the toilet or turns on another tap somewhere else in the house your shower is never affected ensuring complete comfort.

The most popular Crosswater thermostatic showers are recessed into the wall and come with the different levels of functionality (see below) using either a handle or a push-button.

	HANDLE		PUSH BUTTON (pages 170, 177 & 184)			HANDLE		PUSH BUTTON (pages 170, 177 & 184)	
	Portrait	Landscape	Portrait	Landscape		Portrait	Landscape	Portrait	Landscape

thermostatic valves

PROVEN TECHNOLOGY & QUALITY

All Crosswater thermostatic showers use only the highest quality components such as the 'Vernet CA43', a world-leading thermostatic cartridge and Fluhs ceramic discs, both of which deliver precise temperature and flow control, even after years of prolonged use.

also available

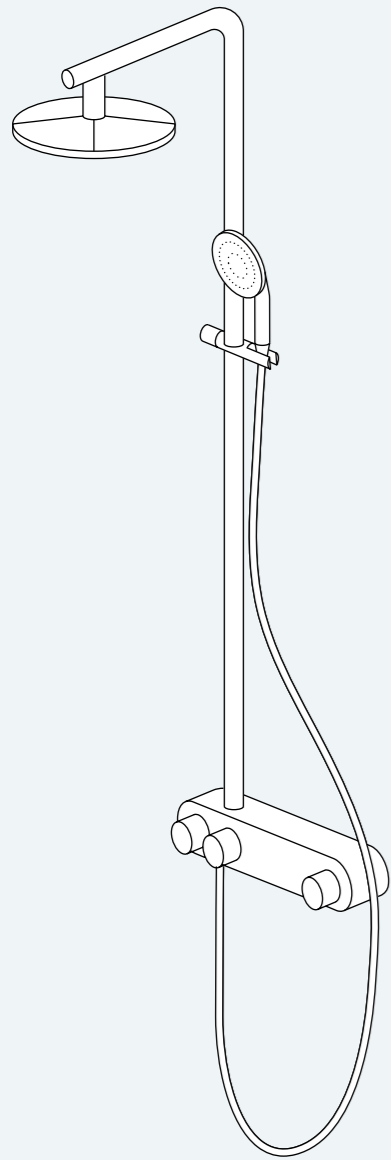

CROSSBOX

In selected ranges, we are now offering the cutting edge 'Crossbox' universal thermostatic shower installation system (see page 22) which is designed to make the installation process of recessed valves quicker and easier.

CROSSBOX

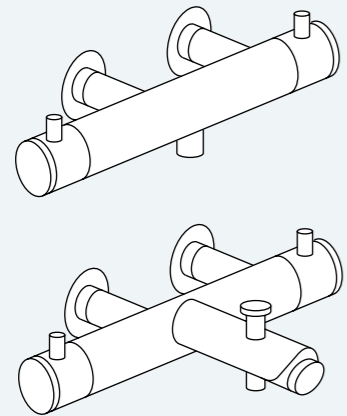

all in one showering
MULTIFUNCTION VALVES

Multifunction **thermostatic** shower systems extend the exposed offer incorporating a versatile handset, overhead shower and valve in one single product.

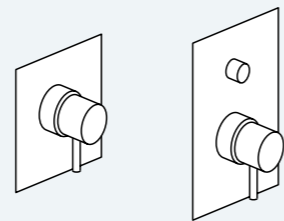

You can find all these ranges starting from page 226.

perfect for shower kits
EXPOSED VALVES

Crosswater's exposed **thermostatic** shower mixers are as safe and easy to use as the recessed valves but are fitted on-the-wall rather than behind it. They all feature an easy-to-use installation kit for convenient fitting and are most often used when replacing an existing exposed shower or in a situation where it is not suitable to dig into the wall.

You can find all these ranges on page 230.

simplicity
MANUAL VALVES

Unlike thermostatic shower valves, manual shower valves do not regulate the temperature of the water. So, if somebody should turn on another tap elsewhere in the house, you may find that the water runs too hot or too cold. This can mean manual shower valves aren't always suitable for some, as there is the possibility that the water may become uncomfortably hot.

Crosswater manual shower valves are only available with recessed wall installation.

BATHROOM RANGES

style on tap

Contemporary and traditional designs for all. An extensive range of taps and mixers, offering a choice to complement all bathroom styles, sizes and user functions.

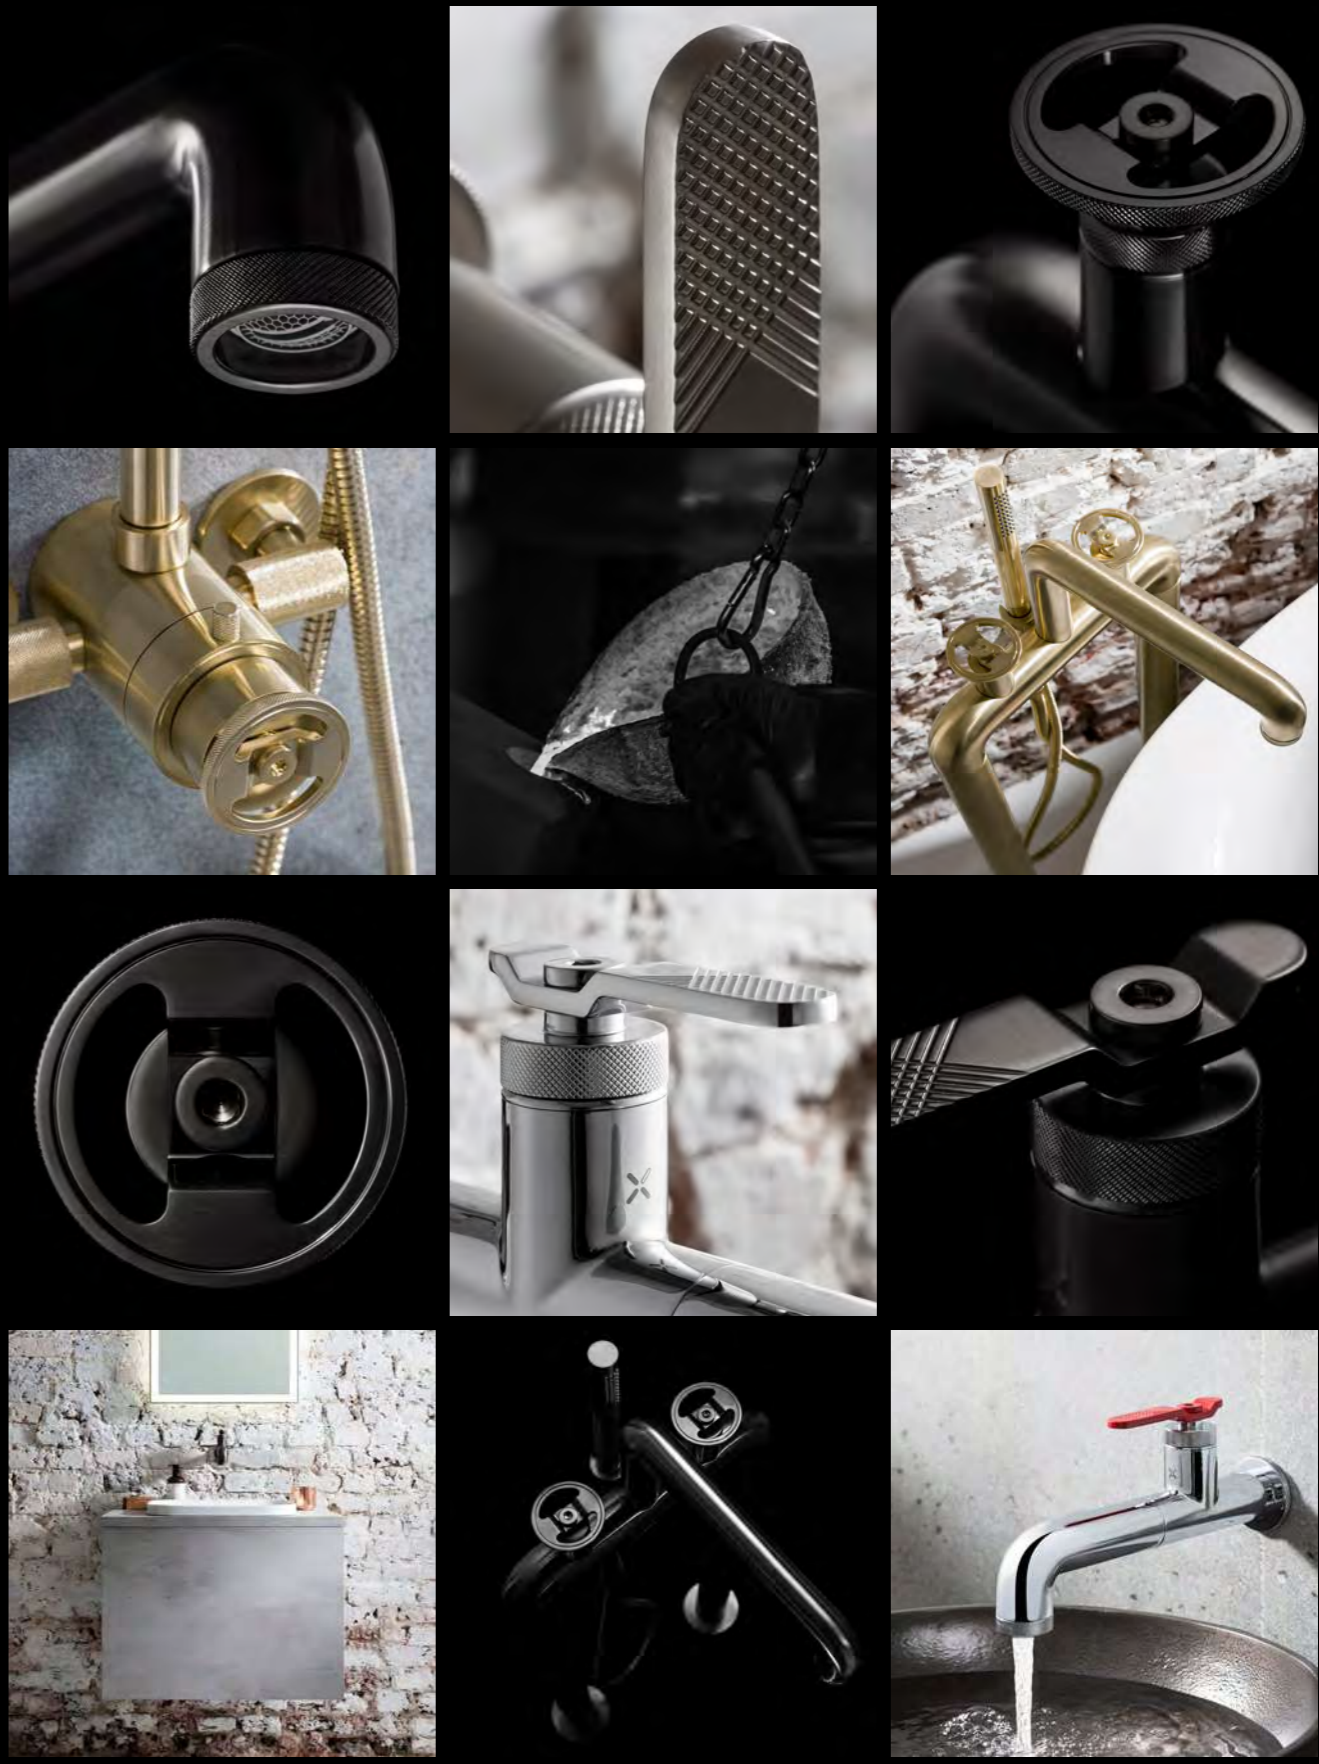

UNION

PRECISION BRASSWARE CAST IN ITALY

UNION, setting a new standard for contemporary brassware engineering, this innovative collection is a leap forward in design for the modern bathroom. Presenting Italian artisan brassware skills at its finest, each component is cast, precision machined, polished and perfected to offer an elevated bathing experience.

In a move to challenge the traditional concept of bathroom fittings, UNION is engineered to provide unparalleled functionality and designed to make a statement. Only the very best components are used, coupled with stringent quality standards resulting in a product that will stand the test of time.

UNION brings you four distinctive finishes available across a complete collection of bathroom taps, valves, showerheads and bath fillers.

PRECISION ENGINEERED FINISHES

UNION is tailored to the individual. Four refined finishes are offered across the entire collection, presenting a selection of brassware products that are as beautifully coordinated as they are designed.

For the traditionalist, UNION brings you classic Chrome and Brushed Nickel finishes. Those seeking a design statement can opt for on-trend Brushed Brass and the unique Brushed Black Chrome. Each unique surface is complemented alongside distinctive, knurled detailing, expertly machined as accents on to each individual piece.

CUTTING-EDGE FROM START TO FINISH

Smart on the inside, UNION is manufactured using the most advanced brassware engineering techniques and the latest in cartridge and thermostatic valve technology to offer complete water flow control. Behind the scenes each product is intuitive, high performing and built to last, offering the user a premium level of functionality with each and every use.

UB3001RC_RW £1,125.00

2-WAY DIVERTERS

These valves let you control two products, for example a shower head and a bath filler.

MULTI-FLOW VALVES

Crosswater's MULTI-flow valves allow for even more flexibility in showering. Our two way diverters with MULTI-flow let you control two products independently, for example showerhead and bath filler, and now gives you the additional functionality to have both products on at the same time.

3-WAY DIVERTERS

These valves let you control three products, for example a shower head, bath filler and body jets.

Waldorf ✕

A TRULY EVOCATIVE COLLECTION

Classic in its inspiration, Waldorf is a truly evocative bathroom collection. Combining exquisite craftsmanship with early twentieth-century styling, each Waldorf piece has been expertly designed to represent the ultimate in bathroom luxury.

Evoking a timeless feel, elegant curves are blended seamlessly with the era's signature angles to offer a superlative range of bathroom furniture, brassware and ceramics. Beautiful finishes are combined with exquisite detailing to create Waldorf's signature style that caters perfectly to advocates of traditional design.

TRADITIONAL DESIGN & STYLING

A beautifully classic collection that exudes traditional design and time-honoured styling, Waldorf blends angular lines with elegant softened edges, resulting in a wonderfully distinctive look that will stand the test of time in any bathing space.

Presented in a refined choice of classic gloss white, or dramatic piano black finishes, the collection's vanity and furniture units are perfectly set with fine detailing such as exquisite bevelled edges, and a choice of classic round or bow drawer handles. Coordinating beautifully with the selection of Waldorf high-shine chrome brassware, the collection is complemented alongside a selection of mirrors and bathroom accessories, all sympathetically curated in the style and essence of the 20s era.

ABOVE: Black Gloss 1000mm Wide Unit, Basin, Legs, Overflow Cover and 4 Knobs; Black Gloss Tower Unit and Handle; Waldorf Illuminated Mirror; Black Gloss WC Furniture Unit; Wall Hung WC Basin 3 Hole Set Chrome Black Lever. OPPOSITE LEFT: Basin Console 80. OPPOSITE RIGHT: Basin 3 Tap Hole Set Chrome Crosshead.

Create a complete look in the bathroom with the stunning range of coordinating brassware, ceramics and furniture

NEW

ITALY ✕

EXPRESSIVE DESIGN PERSONAL STYLE

The new Italy range, designed by Busetti, Garuti & Redaelli, is offered in 49 colour combinations and gives life to true customisation allowing each consumer to express their own truly personal bathroom style.

Moderne forms of the 1920s inspire the new Italy range which combines enhanced metals, natural stone and marble creating a unique character and an unparalleled user experience.

With so many colour combinations the Italy range is handcrafted on a made to order basis for each customer with a lead time of 6-8 weeks.

ENDURING ELEGANCE FOR THE INDIVIDUAL

The Italy brassware collection celebrates the decadence and grandeur of early twentieth-century design. By uniting cast metalwork with the finest natural stone, a unique aesthetic can be achieved within the contemporary bathing space.

Eight exquisite metal finishes are presented alongside seven handle designs to allow a combination tailored to the individual. Each high-luxe material is thoughtfully chosen to emulate the essence of 1920s style. Introduce the beauty of Italy to the modern bathroom with a choice of basin, bath and in-shower brassware.

B

A

“With eight base finishes and seven handle finish options to choose from, Italy is a truly comprehensive brassware collection.”

MARVEL

CONTEMPORARY DESIGN **VANGUARD STYLE**

Following the success of the award-winning UNION range, Marvel adds contemporary design styling to the Vanguard collection.

Marvel expands the portfolio with a modern contemporary design that offers iconic shapes with a soft, human feel in sparkling chrome and the increasingly popular matt black finish.

It sits perfectly between the industrial design of Union and the traditional looks of Waldorf ensuring that the Vanguard collection has a style to suit all tastes.

CROSSBOX

Introducing the next level of recessed shower valve design

CROSSBOX features all of the benefits of our standard range of recessed valves but adds some additional features for both the consumer and installer.

benefits

FOR THE CONSUMER

- ✘ If you want to future proof your shower so it can be easily upgraded as technology develops, choose CROSSBOX.
- ✘ If you are looking for a 3-outlet shower valve in a more compact design, choose CROSSBOX.
- ✘ If you want a 2-outlet shower which will allow each to work independently or at the same time, choose CROSSBOX.
- ✘ If you want our quietest possible shower with added sound and waterproofing benefits, choose CROSSBOX.
- ✘ If you want a quicker and easier way to install a shower valve that projects less, choose CROSSBOX.

benefits

INSTALLER/CONTRACTOR

- ✘ Super slim 60mm minimum installation depths requires reduced solid wall preparation for quicker installation time.
- ✘ Front or rear mounting options increase ease installation and flexibility.
- ✘ Simple 2 stage fixing allows installation of in-wall components and final trim separately reducing possible on-site damage.
- ✘ 'Flush-block' testing plate included for easy pressure testing.
- ✘ Easy fix 2nd stage trim sets reduce installation times.
- ✘ Built-in, 'Easy-switch' thermostatic module allows for simple, quick flow reversal if feeds are plumbed in the wrong way round.
- ✘ Improved flow dynamics allow 90-degree elbows to be fitted directly to outlets to create a more compact piping footprint.

MPRO

The established choice for high-quality bathrooms, MPRO delivers the very best in brassware engineering. Combining superb function and precision design, the result is a complete collection of bathroom mixers, valves, and shower heads that meets the exacting demand of today's modern bathroom.

Two new finishes join the MPRO collection, Brushed Brass and Matt Black alongside the introduction of a stunning knurled detail, creating a bathroom that is as beautifully crafted as it is designed. All four exquisite finishes are offered across the entire MPRO collection, including a complete set of coordinating accessories.

The finest components and materials ensure that MPRO delivers on flow performance and, as importantly, safety and water efficiency with WRAS and TMV2 certification.

BELGRAVIA

• EXPOSED VALVES •

Luxurious finish options

Adding a touch of hotel-inspired luxury to shower rooms, our traditional Belgravia brassware collection is available in two exquisite finishes of polished Chrome and warm Nickel, reflecting the classic styling seen in period bathrooms.

multiple water flow OUTLET VALVE OPTIONS

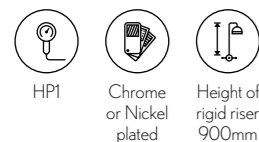

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

Belgravia Thermostatic Shower Valve with 8" Fixed Head

Multifunction Shower Valves

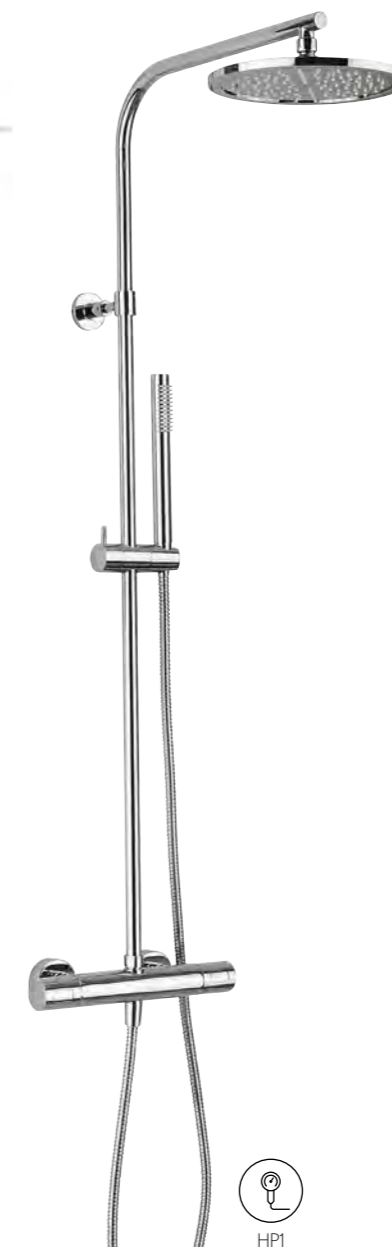

Crosswater offers a wide range of contemporary and traditional multifunction shower systems which typically include a thermostatic shower valve for safety and comfort, with an integral diverter, head, handset and rail all in one product and without the frustration of choosing individual parts and checking compatibility.

Additionally, features such as a temperature safety stop and water saving button are included in most ranges. Multifunction showers are a quick and easy way to renovate and revitalise your existing dated installation to a better, more enjoyable shower experience.

Exposed Valves

Sleek in style and superior in performance, Crosswater's exposed thermostatic shower mixers are simple to operate and look great in any bathroom. Supplied as standard with built-in safety controls, we have developed an easy-to-use installation kit for convenient fitting.

- Perfect for use with any Crosswater shower kit
- Solid brass construction
- ¾" outlet and inlet
- Suitable for all hot water supply systems from 0.5 bar pressure
- Separate flow and temperature controls
- Facility to set your preferred temperature and leave for the next time you use valve
- Ceramic disc control for smooth turning action and no drips
- Temperature handle has a built-in safety stop at 38°C with manual override button
- Complete with wall unions for installation
- 15 year guarantee

SHOWER HEADS, ARMS & BODY JETS

step into luxury

Delivering a superior-quality range of shower heads and body jets, this comprehensive collection offers the essential components needed for a luxurious and refreshing in-shower experience.

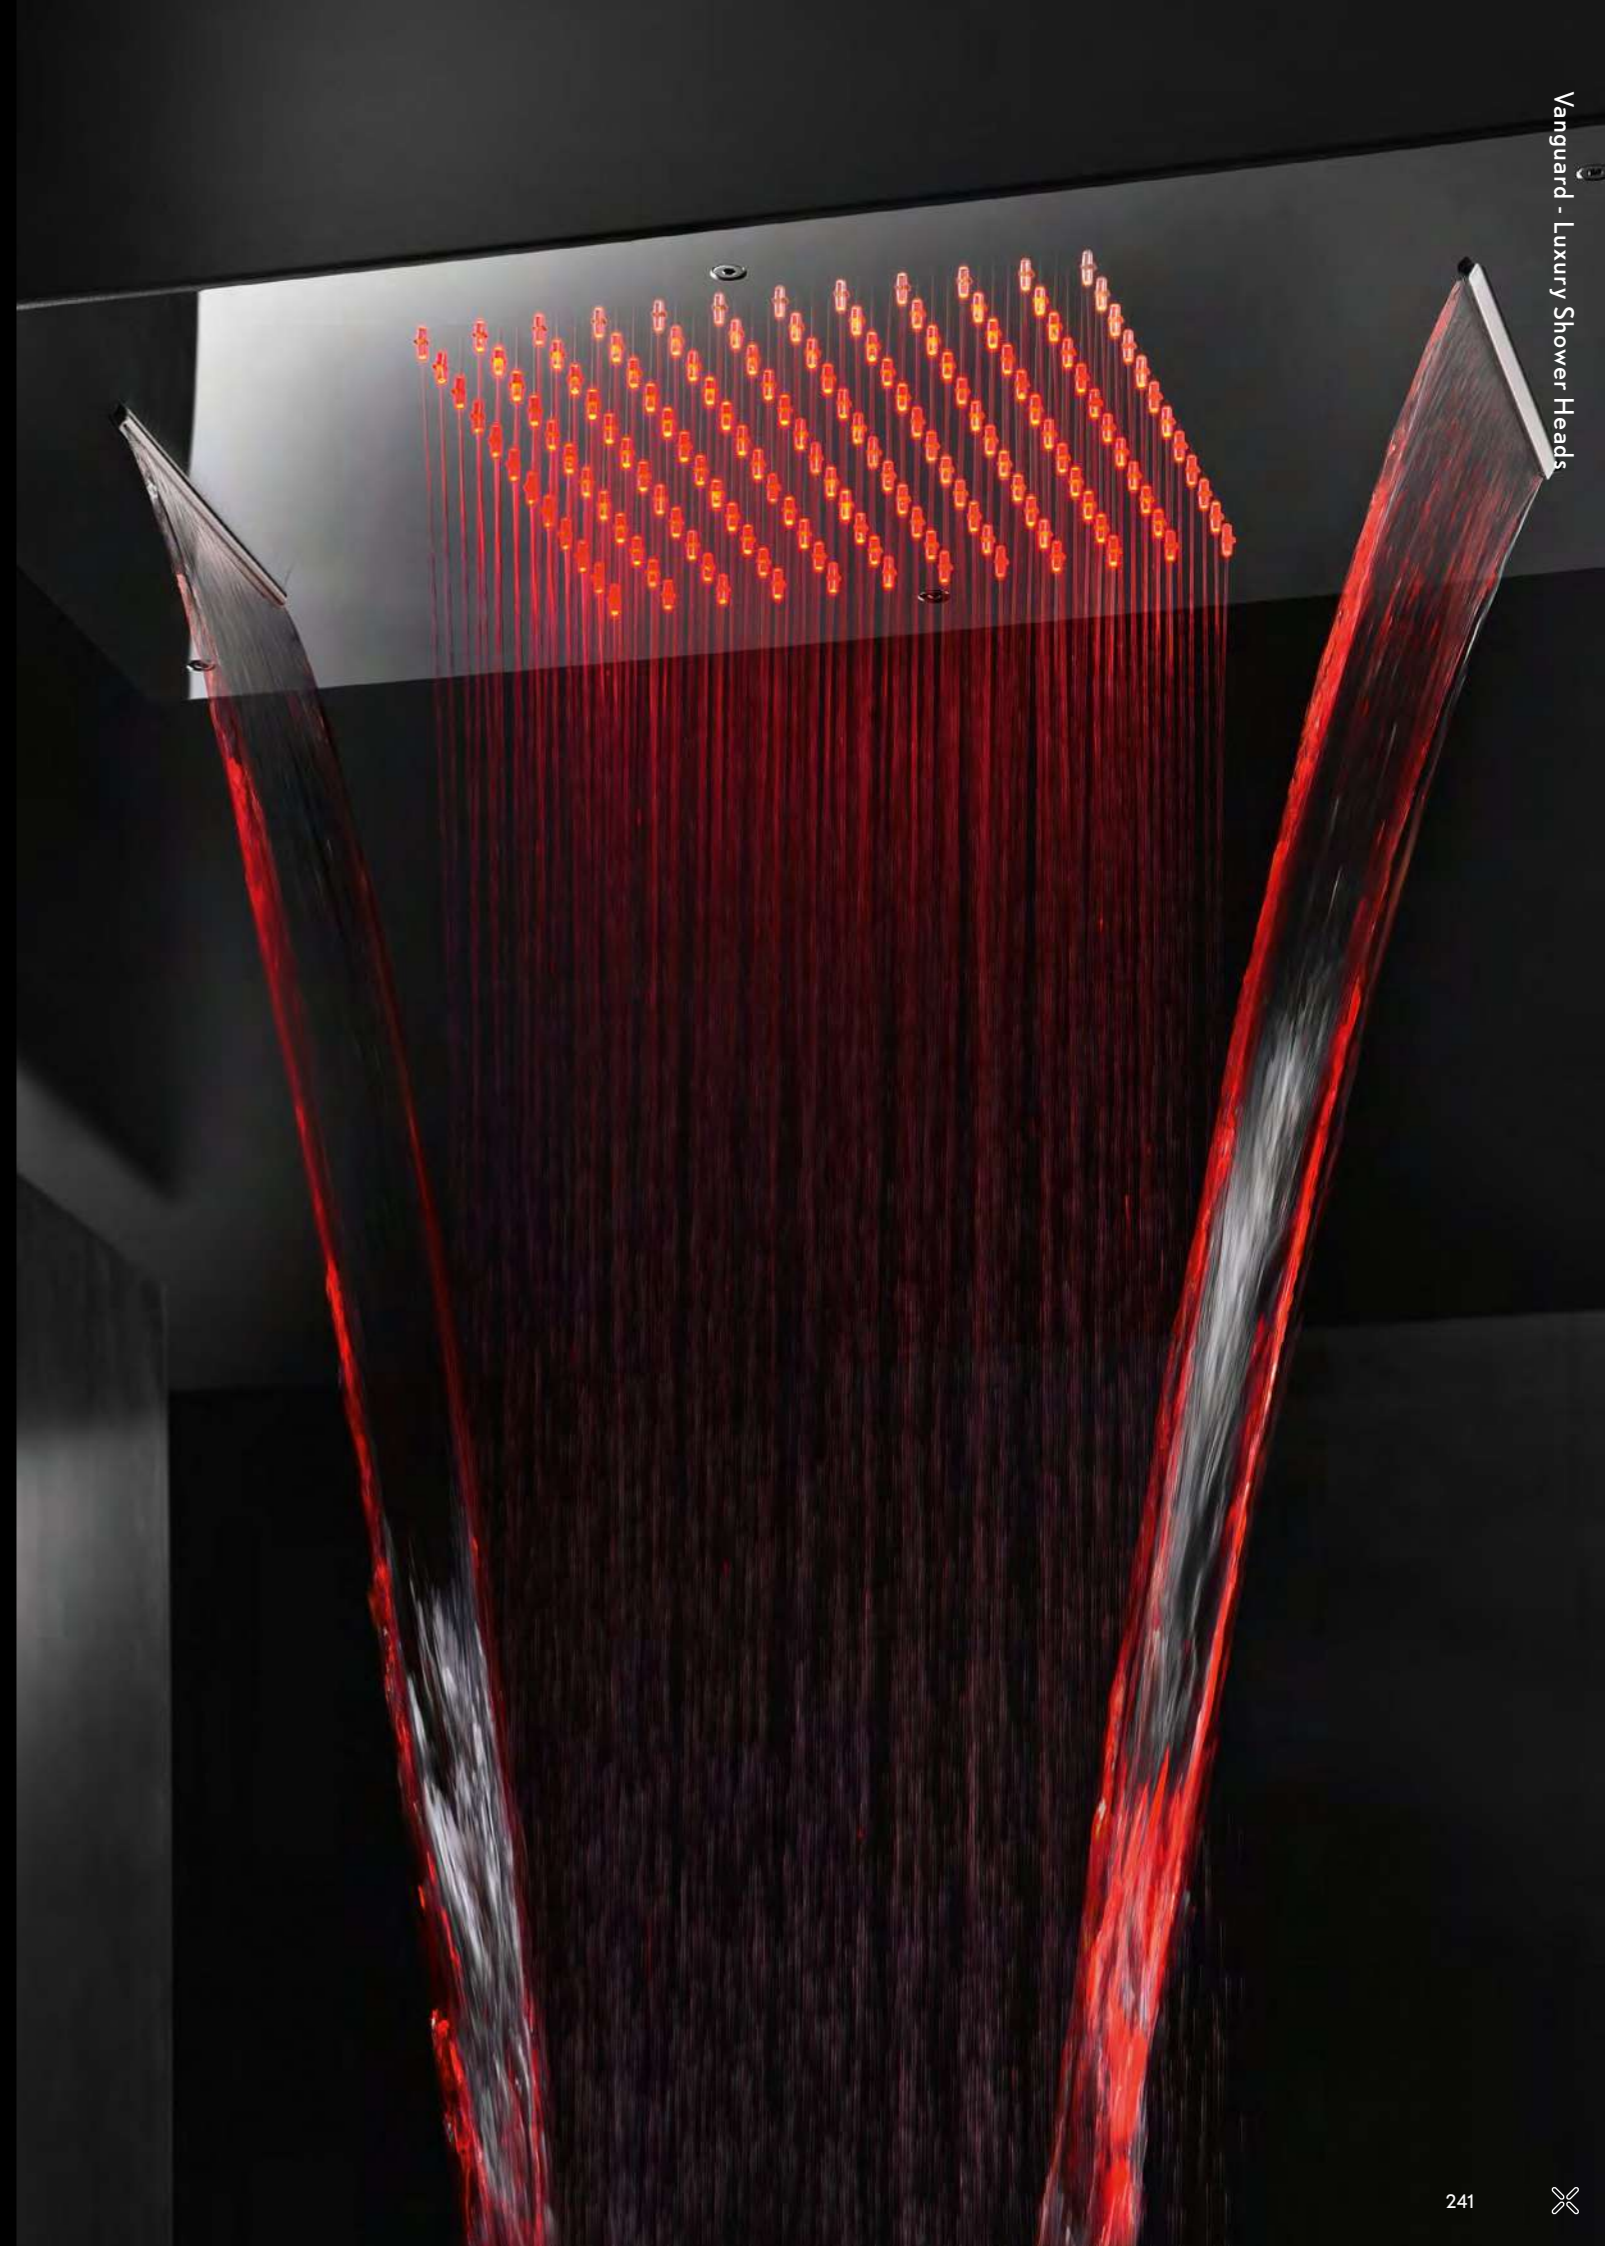

Vanguard

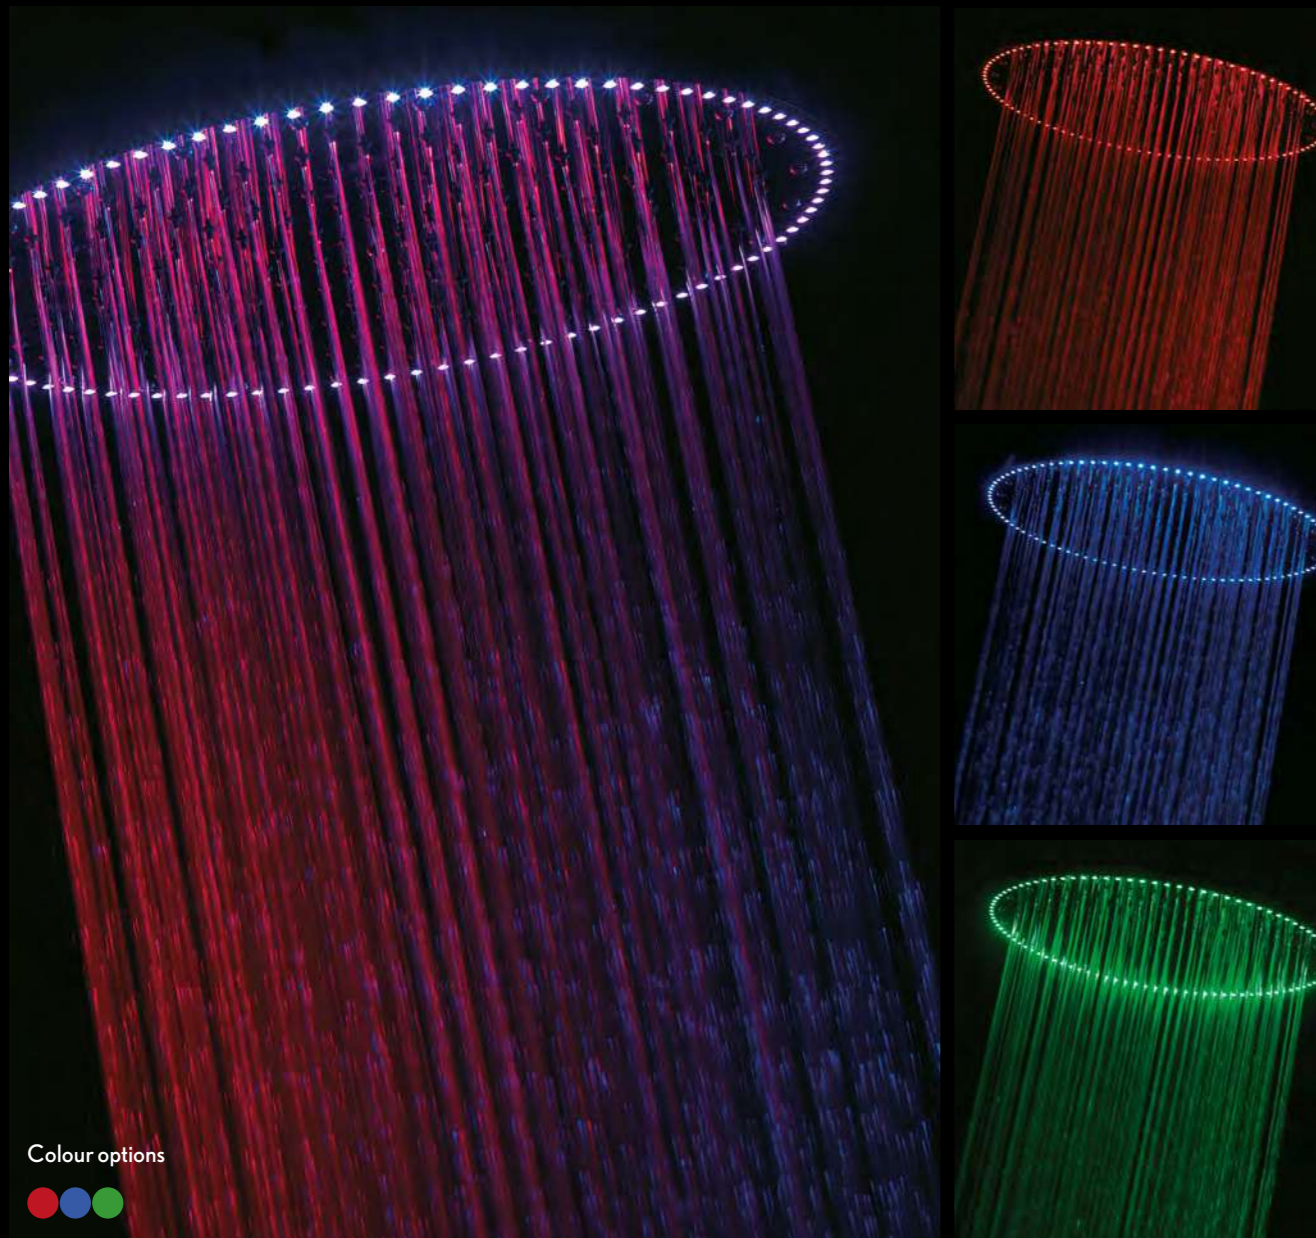

SHOWER HEADS

There is nothing more luxurious than a drenching shower to revitalise and refresh. If you have a penchant for minimal aesthetics or lean more towards the extravagant, Vanguard offers a curated selection of premium shower heads to inspire you. All are intuitively designed to ensure a superior showering experience with each and every use.

Our innovative range of chromatherapy shower heads will transform everyday routines into an immersive experience. Featuring integrated, low-consumption LED lights, users can opt for multiple colours or a stunning rotational spectrum to create an in-shower light show that is designed to both soothe and uplift. What's more, the entire colour rainbow of the Vanguard illuminated designs can be controlled by a handy waterproof remote.

Colour options

RIO SPECTRUM

Rio Spectrum is a brand new ultra thin shower head that provides a spectrum of stunning colour effects with 96 LED lights, programmed by a keypad. The low consumption LED lamps create a column of water and light with a diameter of 400mm that operates perfectly with 3-bar pressure.

Rio Spectrum Shower Head with Light and Ceiling Arm
FHX740C £4,634.00

Ø400 x h 152mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Made to order, non returnable/ refundable.

- Requires mains power*
- Made to order

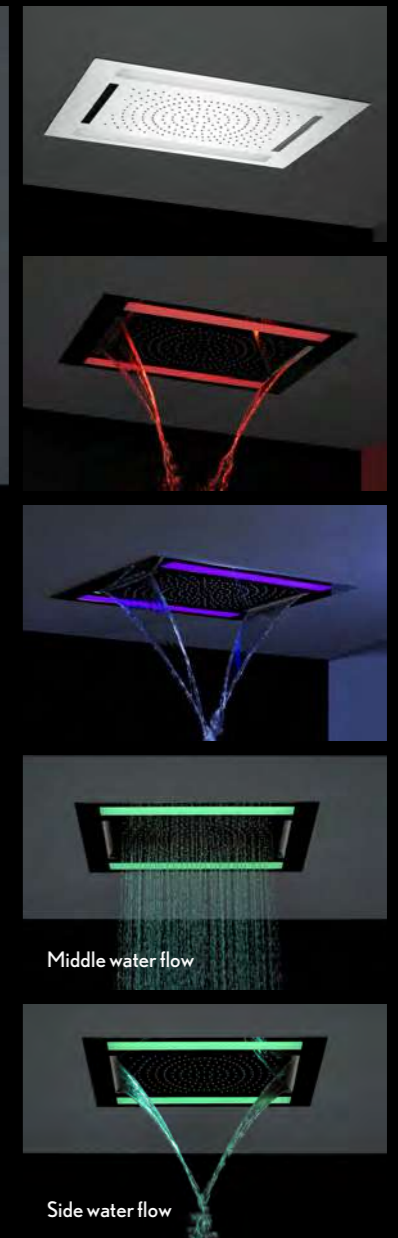

PROGRAMMABLE KEY PAD

With 13 individual lighting settings
w 120 x d 80mm

Colour options

Middle water flow

Side water flow

RIO REVIVE

Illuminate your shower with a choice of green, red or purple lights to achieve a spectacular visual effect. The low consumption LED lamps create a truly magnificent column of water and light. Ultra thin, it can be seamlessly recessed into the ceiling to provide the ultimate showering experience.

Rio Revive Shower Head with Lights and Double Waterfall Feature
FHX610C £4,531.00

w 600 x d 400mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations.

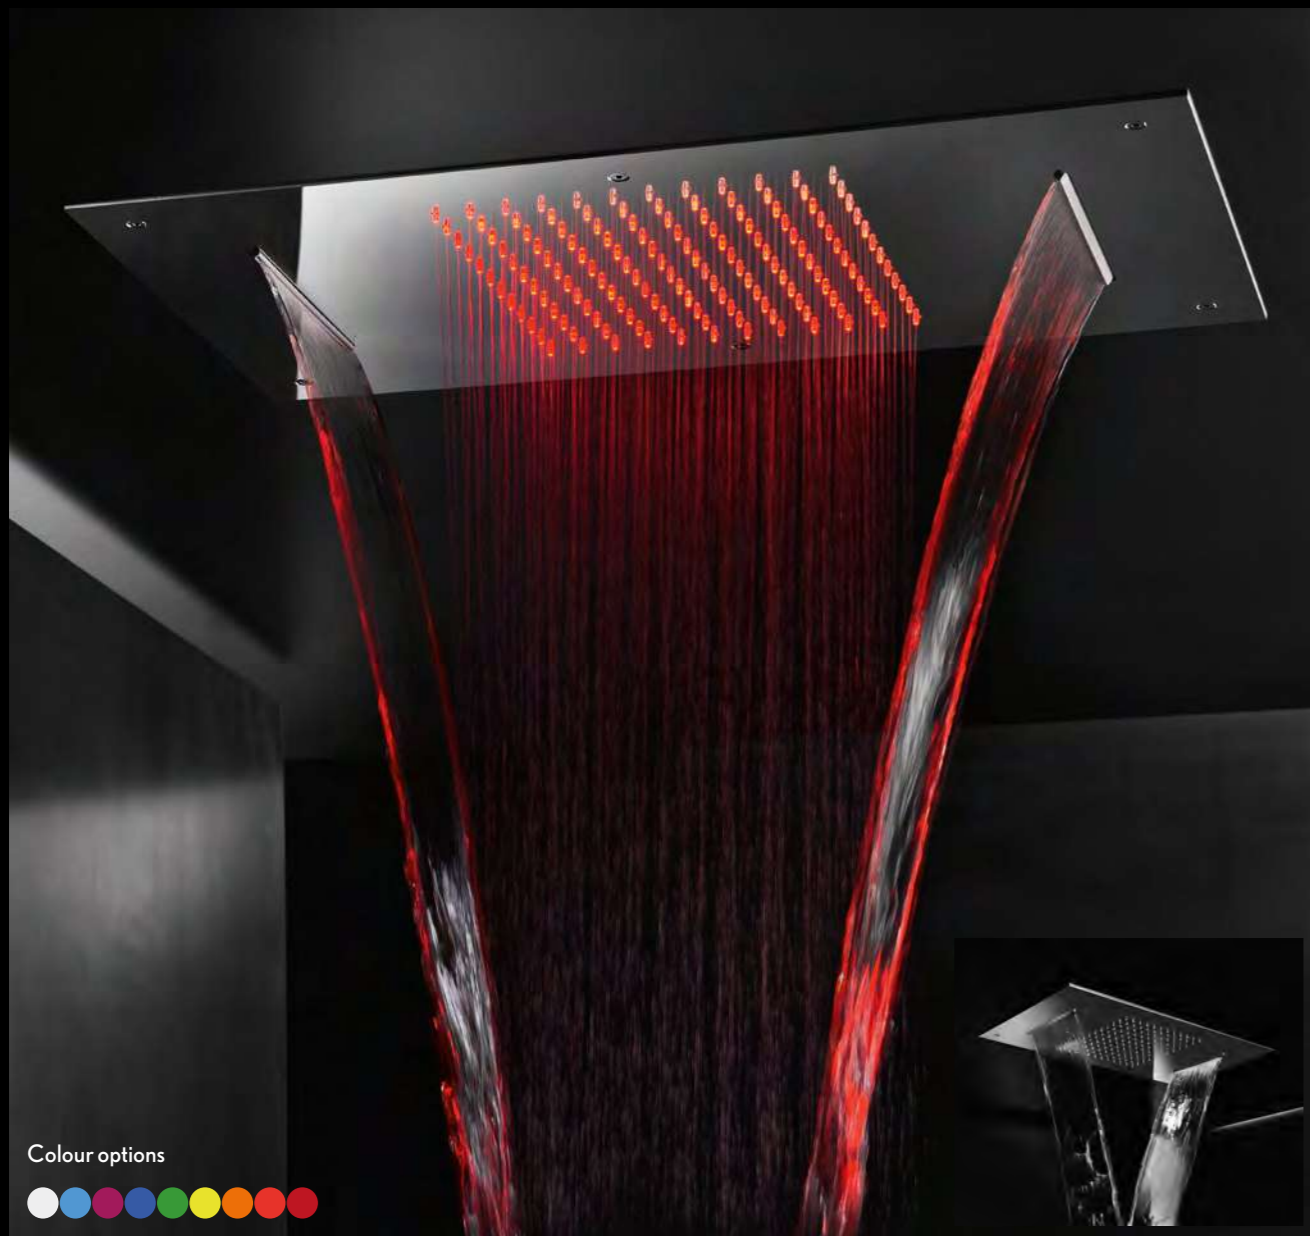

- HP3
- Two mode
- Brass
- Polished stainless steel
- 10 Year Guarantee
- LED lighting
- Requires mains power*

REMOTE CONTROL

The waterproof remote control features a chromotherapy system with a choice of seven colours and colour rotation. If you'd like to position the remote control on the wall, a supportive hook is supplied to safely house the control. Batteries are supplied as standard.

FHX700C

FHX700C is the brand new ultra thin chromotherapy shower head guaranteed to illuminate your showering experience and bring bathrooms into the 21st century with a pop of colour. The stunning design also allows you to switch between its waterfall and rainfall shower functions, which can also be operated simultaneously.

Rectangular Chromotherapy Temptation
FHX700C **£5,299.00**

w 380 x d 700mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Manufactured to order, non returnable/refundable.

REMOTE CONTROL

With nine coloured LEDs, the waterproof remote control allows you to transition through cool and warm colour cycles using the redetermined settings. Subtle back lighting appears when the remote is in function and a supportive wall hook is supplied for safe positioning on the wall.

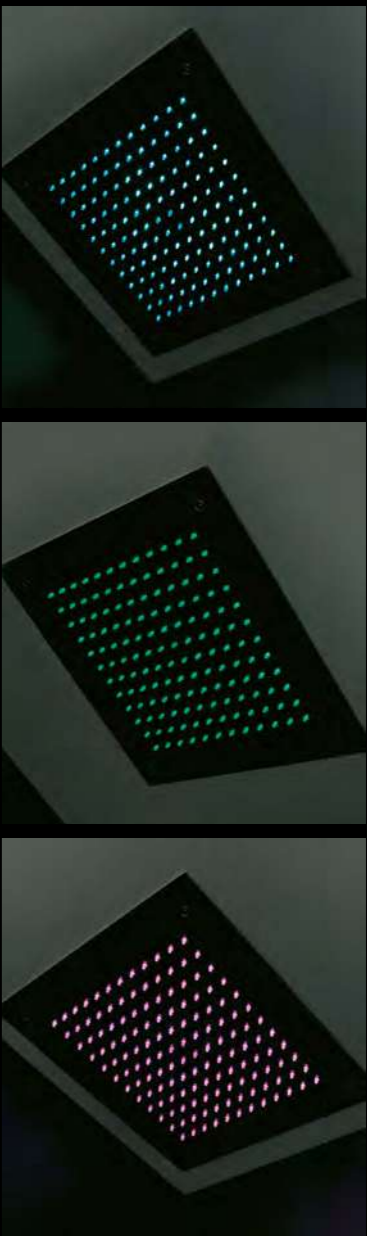

FHX380C

Turn daily shower routines into the ultimate spa experience with our luxury chromotherapy shower heads. With a choice of green, blue, purple or white LEDs, the spectacular rain function has lights in all four corners to light up bathrooms with a magnificent visual effect.

Square Chromotherapy Temptation
FHX380C **£4,299.00**

w 380 x d 380mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Made to order, non returnable/refundable.

REMOTE CONTROL

Offering four colours and colour rotation, we supply a waterproof remote control to make showering in style even easier. You can also safely store your remote on the wall with the supplied supportive hook. Batteries are supplied as standard.

Luxury shower heads

Step into luxury with our superior collection of statement shower heads. Choose from a wide range of styles, finishes and outlet options.

Svelte

Combining sophisticated style and innovative function, the Svelte shower head embraces luxury bathroom elegance. Featuring multiple water flow channels, including rain, waterfall and refreshing spinning jets, the statement design offers a sensational showering experience.

Svelte Multifunction
FH2100C £1,799.00

Illuminated shower heads

Our innovative range of illuminated shower heads will transform daily cleansing routines into the ultimate spa experience. LED bulbs and multiple colour spectrums create an in-shower light show that is guaranteed to sooth and relax.

Rio

Illuminate your shower with a choice of white or blue light to achieve a spectacular visual effect. The low-consumption LED lamps create a column of water and light with a diameter of 240mm that operates perfectly with 3-bar pressure.

Rio White Circular
FHX720C £2,049.00

Ø240mm

A 1000 recessed shower valve is ideal for the Rio head. If you require a separate handset, choose a 1500 valve, see page 8.

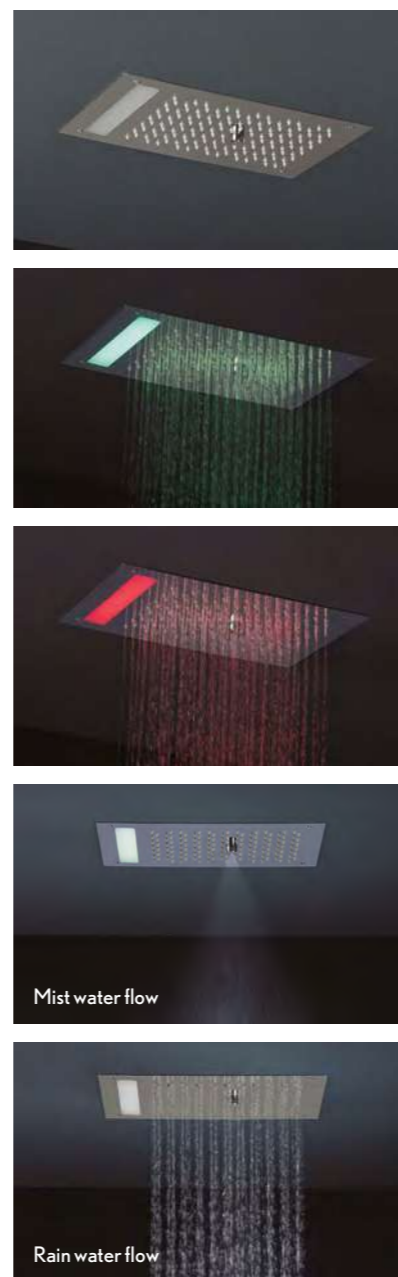

Requires mains power - products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations.

Supplied with ceiling arm

RB820C £119.00

Svelte Rotating Body Jet
RB810C £119.00

Square Rotating Body Jet
RB811C £119.00

easy fit
**HASSLE FREE
INSTALLATION**

Our in-shower body jets come complete with easy fit in-wall boxes to ensure that installation is simple and fuss free.

**choosing
a valve**

If you are teaming your body jets with other items such as a shower head or handset, you will need to use a 2, 3 or 4-way diverter valve, which allows you to control multiple outlets with ease.

See page 10 for more information.

SHOWER KITS

take control

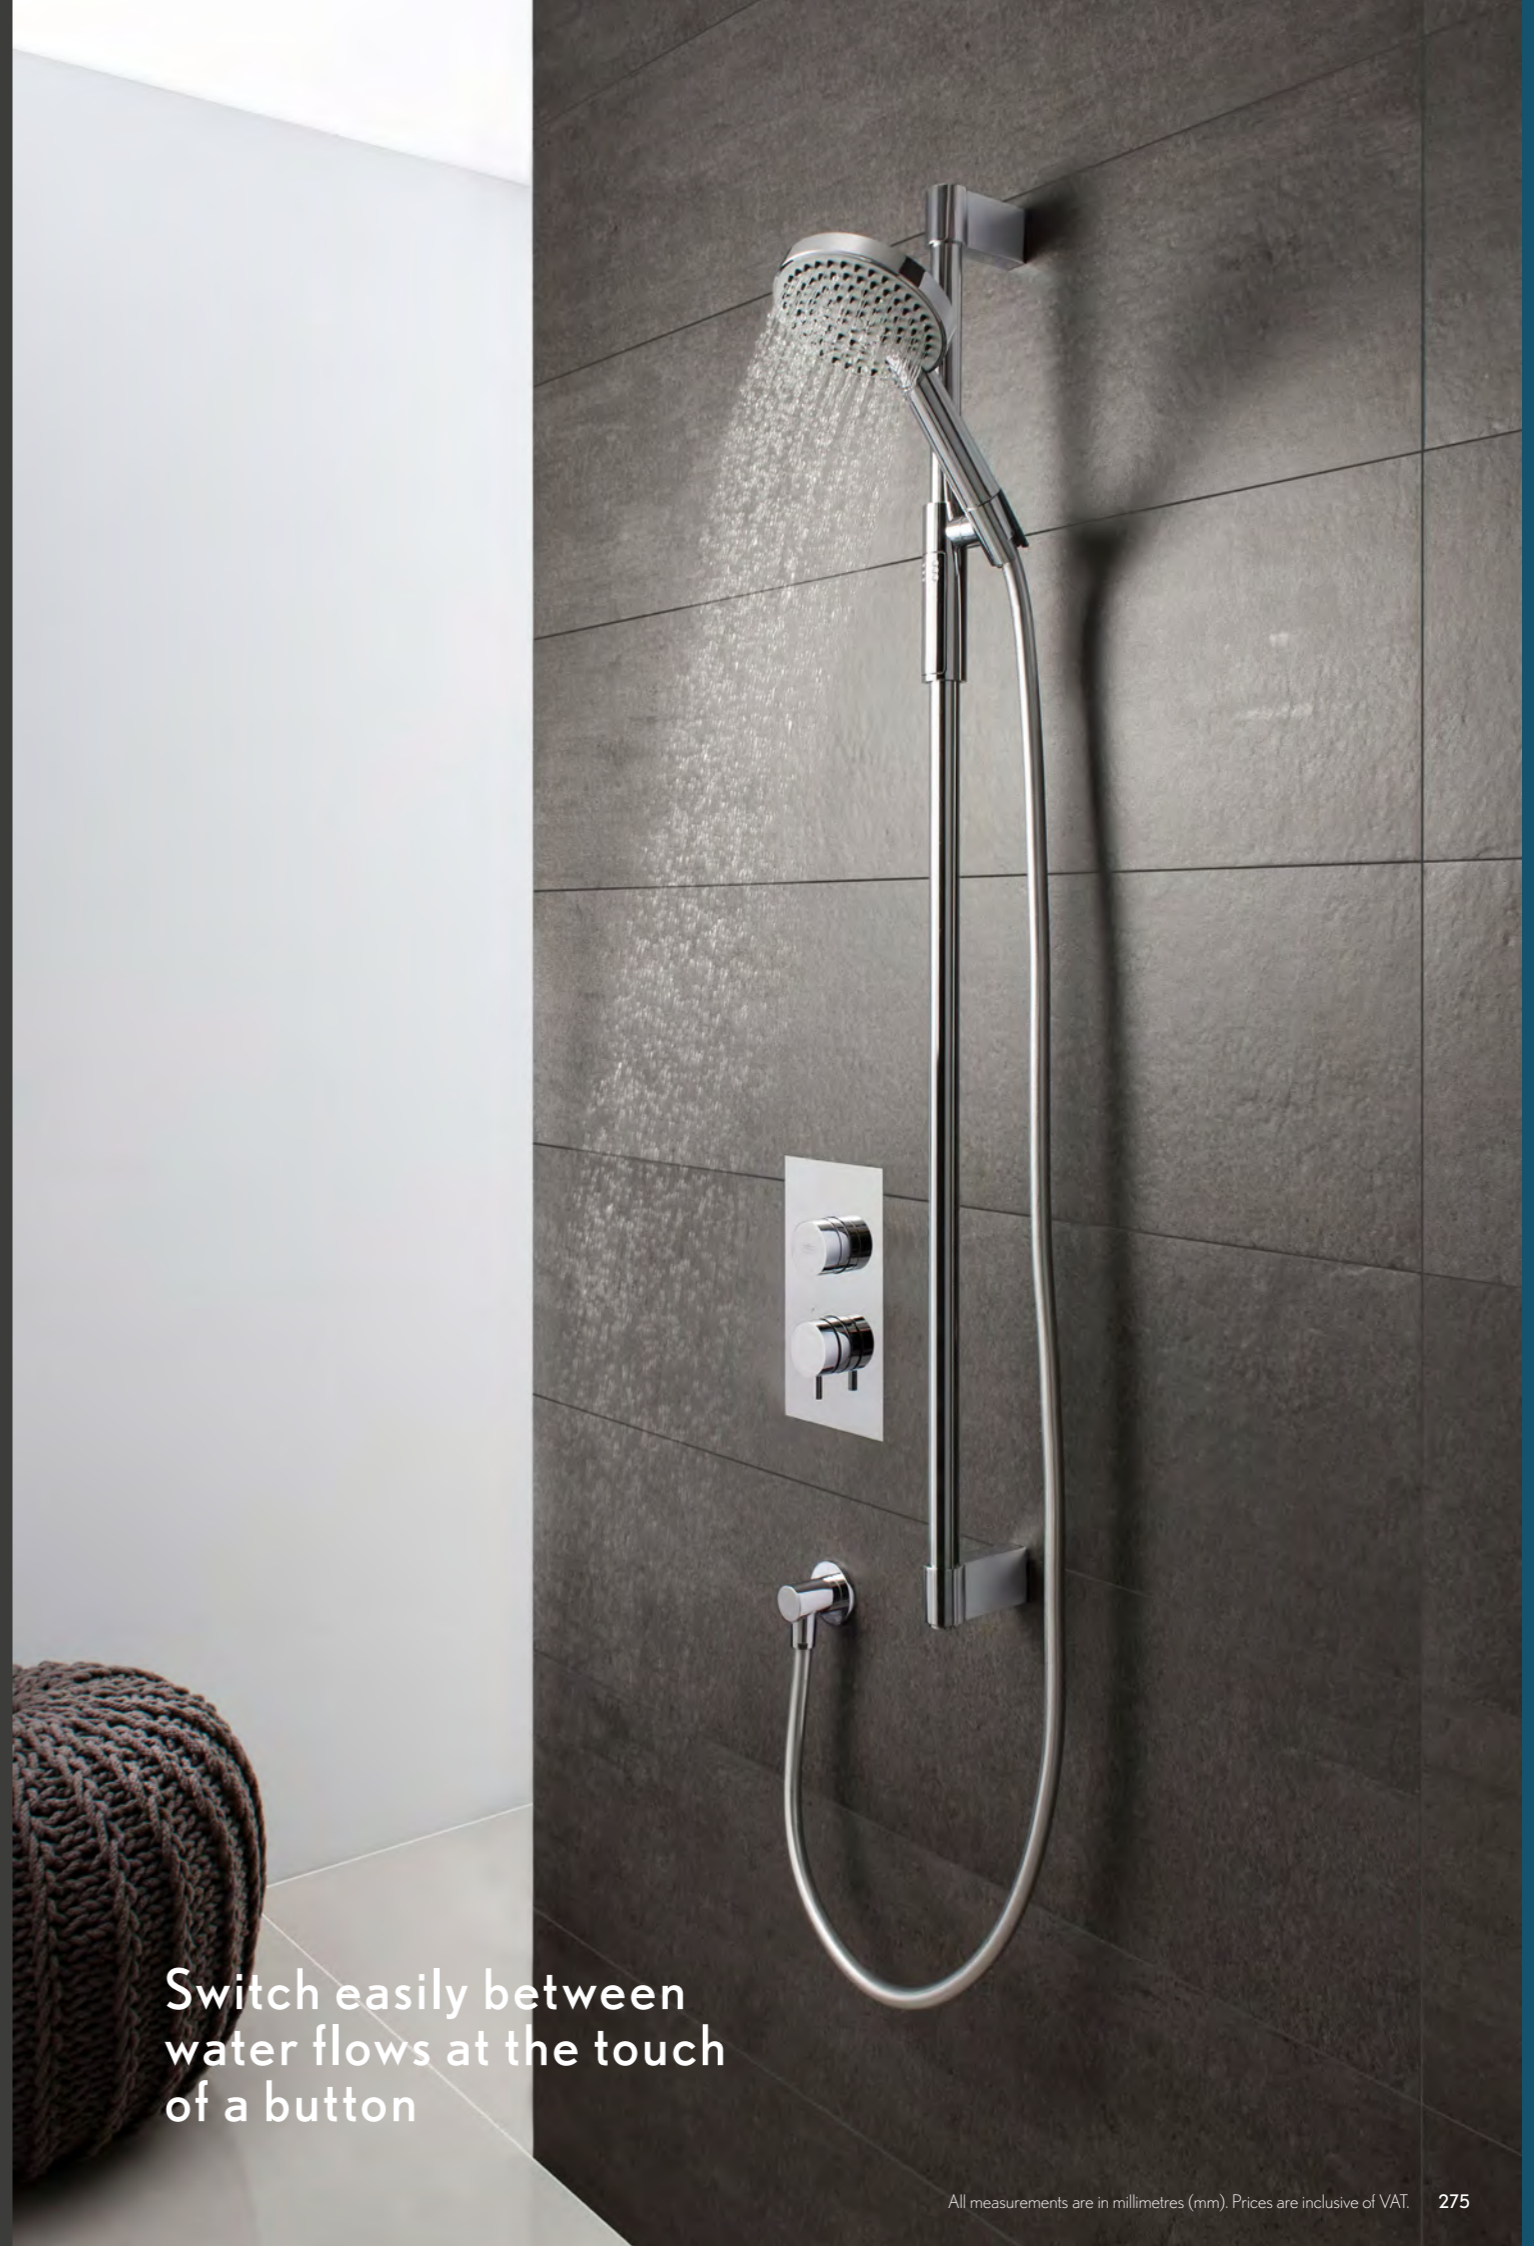

A versatile alternative for installing a shower head in any enclosure or over-bath situation, our high-performance kits offer a range of user-friendly functions accompanied by a flexible riser rail.

Ethos

Changing the shape of showering, the Ethos handsets introduce the latest water control technology at the touch of a button. Forget trying to operate a dial or slider with wet hands, Ethos allows you to simply press a button and comfortably switch between three spray modes: invigorate, rain or a combination of the two.

Switch easily between water flows at the touch of a button

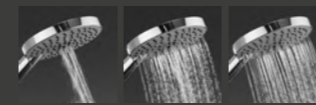

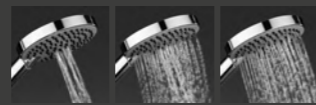

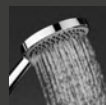

Ethos

push-button feature

GET THE LATEST SHOWER CONTROL TECHNOLOGY

Choose from a modern handset holder with wall outlet (see page 217) or opt for the ultimate in-shower riser rails with the Ethos 'easy-sliding' push-button design (below). The controlled height and angle-adjustable handset holder is easy for the entire family to use.

Style Finder

Choose from a comprehensive collection of inspiring designs and innovative finishes to suit your kitchen, personal style and lifestyle requirements.

Cook

For the professional; a multifunctional option perfect for rinsing and washing. Three different designs make up this stylish yet practical collection, complete with useful features such as flexi and dual function sprays.

clever, hygienic and safe SENSOR TECHNOLOGY

This chrome kitchen mixer with on/off sensor is the latest addition to the stylish Cucina Kitchen range. A single mixer handle with elegant swan neck design, high spout for easy filling of large saucepans plus the smart on/off sensor enabling hands-free operation. Perfect for situations where you need to wash your hands but might not want to contaminate the mixer handle - for example when preparing chicken.

Saves energy by not activating hot water systems for short bursts. Safe as it prevents an instant rush of hot water. Great for rinsing your fruit and vegetables.

Please note: Battery operated (4 x AA batteries so no electrician required). The sensor only controls the cold water feed meaning you cannot get hot water via the sensor mechanism.

Side Lever Kitchen Mixer
TU713DS £269.00

Understanding your water system

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

WHAT IS WATER PRESSURE?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

IDENTIFYING YOUR WATER PRESSURE RATING

By identifying your home's plumbing system you can select a product that best suits your water pressure.

WHY IS THIS IMPORTANT?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar	HP2	minimum 2 bar
MP	minimum 0.5 bar	HP3	minimum 3 bar
HP1	minimum 1 bar	HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

water saving REGULATORS

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day. You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

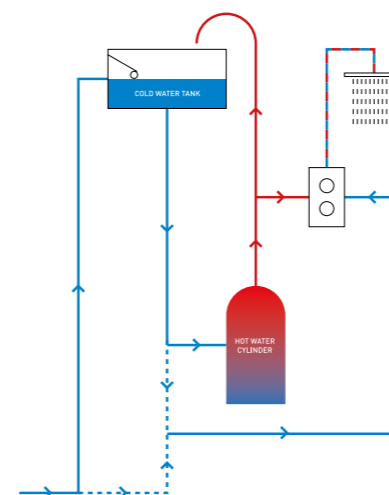

5 lpm Basin Tap Flow Regulator
designed for taps with screw in circular aerator housing
35.6184.0 **£7.00**

8 lpm Shower Flow Regulator
designed for hand showers or fixed heads operating min 1 bar
58.8638.1 **£4.00**

Basin Aerator 5.7lpm
40.8356.01002 **£5.00**

3.5 lpm Basin Tap Flow Regulator
designed for taps with screw in circular aerator housing
35.6182.0 **£7.00**

6 lpm Shower Flow Regulator
designed for hand showers or fixed heads operating min 1 bar
58.8636.1 **£4.00**

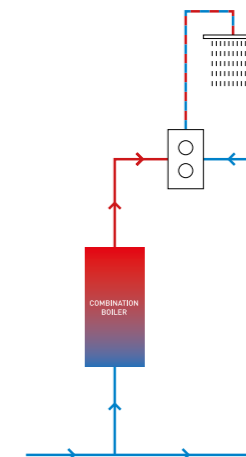

HOT GRAVITY & COLD GRAVITY/MAINS

Low Pressure Systems (LP min 0.2 bar)

- ✓ You have a cold water storage tank in the loft.
- ✓ You have a hot water cylinder.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (min 0.2 bar).

Note A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

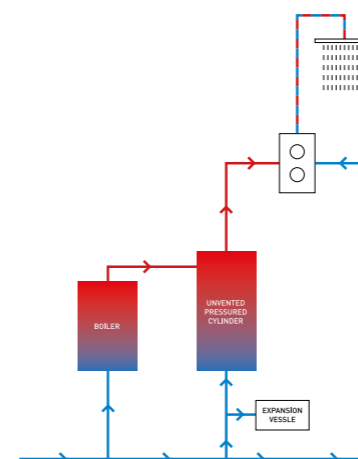

COMBINATION BOILER

High Pressure Systems (HP1 - HP4bar)

- ✓ You have a combination boiler that heats water on demand.
- ✓ You do not have any storage tanks.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

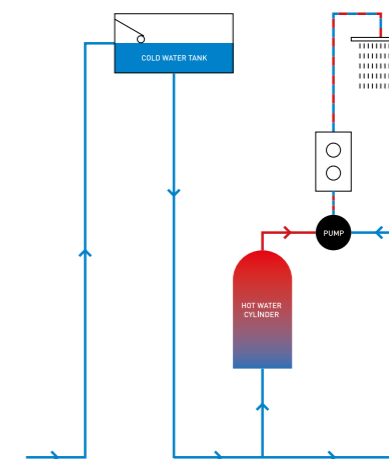

MAINS HIGH PRESSURE

High Pressure Systems (HP1/2/3-3 bar)

- ✓ You have an unvented cylinder with an expansion cylinder.
- ✓ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

PUMP ASSISTED

High Pressure Systems (HP1 - HP4)

- ✓ You have a booster pump fitted.

Where a gravity flow of water is in excess of 0.6lpm, this is known as a 'Positive Head' condition (e.g. when your shower head is positioned lower than your cold water storage tank). In this situation, a positive shower pump can be used. A 'Negative Head' condition is when the gravity flow of water is less than 0.6lpm (e.g. when your shower head is positioned above the cold water tank level). In these conditions, a negative head pump must be used.

Negative shower pumps will work in both positive and negative head conditions. So for example, in a situation where there is a shower head above and below the water tank level; one negative shower pump can be used for both.

With the right pump, you can choose any of our products.

Information

Errors & Omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Cleaning & Maintenance

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

15 Year Guarantee*

All Crosswater brassware and shower valve products, unless otherwise stated, carry a 15 year guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning or consumable goods. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

*With the exception of cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses which are all guaranteed for 1 year.

All unlacquered brass finishes are designed and manufactured to change colour over time due to oxidation. This is not considered a manufacturing fault.

Product Compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

Water Pressure (recommendations)

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

Thermostatic shower valve that offers two independent functions from a single valve.

Thermostatic shower valve that offers three independent functions from a single valve.

Visit your local bathroom specialist.

Expertise & design

Specialist bathroom retailers can offer expert assistance with room layout design and technical considerations. Many will do this in the comfort of your own home and can provide full 3D design plans so you can visualise and create your own perfect bathroom space.

Experience the products

The purchase process is an emotional one. Specialist showrooms allow you to touch and feel a wide variety of bathroom products in relaxed surroundings whilst gaining inspiration from knowledgeable professionals who will explain the benefits of each product and make recommendations that match your personal preferences.

Reassuring aftersales care

Once your perfect bathroom is installed, local bathroom specialists offer an easy and personal point of contact for any aftersales support you may need, delivering complete peace of mind.

Need more bathroom inspiration?
